

GENERAL BLENDING / TEMPERATURE CONTROL

Vinfoil Mixer™

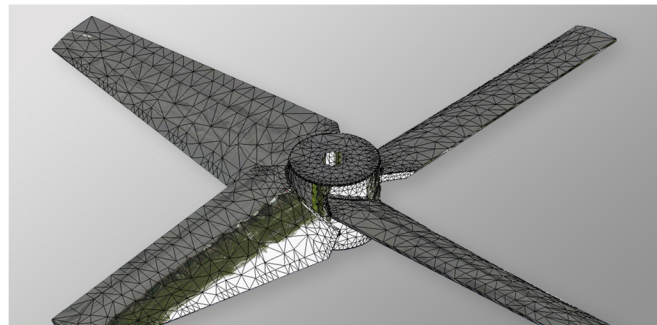

The world's most efficient
mixer for temperature control

Gentle Blending in a Fraction of the Time

Vinfoil mixers unique blade design allows for gentle yet powerful blending, improving flow rate and increasing tank turnover, thus ensuring uniform product consistency and temperature.

- ▶ Less turbulence / no shear
- ▶ Faster tank turnover
- ▶ Vastly improved flow rate compared with a transfer pump
- ▶ Uniform product consistency and temperature
- ▶ Overall reduction of costs associated with labor
- ▶ Easy adaption to automated cellars
- ▶ Virtually maintenance free

Call us at **707 577-7826** to find out more about using the Vinfoil Mixer for General Blending and Temperature Control.
